Standart Tuning

#### CHORDS

```
      C      Em      F      Dm      Dm      G
E|--0-----0-----1/0----1(0)----1-----3----|
B|--1-----0-----1-----3-----3-----3----|
G|--0-----0-----2(0)----2-----2(0)----0----|
D|--2(0)---2(0)---3-----0-----0-----0----|
A|--3-----2-----3-----X-----X-----2----|
E|--3-----0-----X-----X-----X-----3----|
```

For nearly every chord played in the song, a pull off  
And hammer on is employed. This simply involves lifting  
The relevant finger off the string and placing it back down.  
The appropriate string for each chord is shown above.  
It is most noticable on the Dm chord.

Two guitars can be heard on the introduction section, one playing the full  
chords

With the hammer ons and pull offs, while the second guitar plays the same chords  
But with a variation of the hammer ons, most noticable, two different Dm can be  
heard.

Live, Damo appears to favour the second type!

      F      G      F      G
Oh baby baby baby, hold me closely, and softly sweetly kiss your lips, your

```

It's been so long since I heard that song,  
It always does remind me of us.

Chorus:

Hold me, closely, and softly sweetly kiss my lips, my lips.  
Oh baby baby baby, hold me, closely, and softly sweetly kiss your lips, your lips.

Bridge:

F  
That awful night we parted,  
G  
Was when this nightmare started.
